**MODULAR ALUMINIUM
SUBFLOOR SYSTEM**

ALUMINIUM SUBFLOOR SYSTEM

CLICKDECK IS THE LONGEST LASTING SUBFRAME SYSTEM ON THE MARKET.

WHY CHOOSE AN ALUMINIUM SUBFRAME OVER A TIMBER SUBFRAME?

A timber subframe is very susceptible to issues with moisture ingress which inturn causes warping, bowing and premature failure of the subframe.

**Dont waste your money on a timber subframe that will fail
Build Smarter with the CLICKDECK aluminium subframe**

THE FAST , EASY AND LONG-LASTING SOLUTION

2 year old H3 treated pine deck frame on concrete

5 Year old deck frame

TIMBER FRAME FAILURE
Trex Decking boards still in perfect condition but full frame replacement needed.

LONGEVITY
ULTRA LOW HEIGHT CAPABLE
BUILDING CODE COMPLIANT
FASTER INSTALLATION
LARGER SPANS
TERMITE PROOF
NON - COMBUSTIBLE FRAME

PRODUCT SUPPLY:

- Loose supply - Cut onsite
