

## Stocked and supplied by Dahlsens

### RELIABLE SUPPLY, TRUSTED PRODUCT

CSR Hebel is Australia's leading manufacturer of autoclaved aerated concrete (AAC). Dahlsens is excited to announce that we are now stocking Hebel PowerPanelXL, and supply with a fast turnaround to all building sites across Melbourne and Ballarat.

- ✓ Stocked at Dahlsens Pakenham and Laverton
- ✓ Quick turnaround from order to delivery to your job site
- ✓ Take off, BOQ and colour coded mark up plans can be provided, or builder's own take off can be used for quoting
- ✓ Hassle-free supply solution, on your Dahlsens account

### Hebel PowerPanelXL

A lightweight masonry product, AAC replicates a mineral that already exists in nature and uses readily available raw materials such as sand, cement, lime and gypsum. Combined with water and an expansion agent, a high quality masonry material is produced.

#### For Residential & Multi-Residential External & Internal Walls

- 75mm thick, steel-reinforced AAC panels, fixed vertically to Hebel's top hat sections
- Square edge profile
- Fast and easy to install and maintain
- Lightweight and easy to handle
- Fix to conventional frame walls of timber or steel via metal top hats
- Termite and rot resistant
- Strong and solid, with steel reinforcement and anti-corrosion layer on the steel
- Suitable for internal and external applications
- Outstanding acoustic and thermal insulation performance
- Non-combustible, perfect for bushfire zones
- Maintain as recommended by the coating manufacturer

#### Sizes Available

- 600 x 2400 x 75mm
  - 600 x 2550 x 75mm
  - 600 x 2700 x 75mm
  - 600 x 2800 x 75mm
  - 600 x 2850 x 75mm
