

3 in 1 *entrance gets*

TRILOCK™

Trilocks secure more front doors in Australia than any other lock with its unique 3 in 1 technology.

Choose from the classic chic of the Trilock Traditional, the sleek, modern look of Trilock Contemporary, minimalist aesthetic of the Trilock Eclipse, through to the premier style and engineering of the Trilock Omni Pull Handle.

Trilocks set the standard from your front doorstep, inspiring you to express your signature style with complementary levers throughout your home. All Trilocks feature state of the art tarnish-resistant finishes that can be matched in look and feel to your favourite interior levers.

Gainsborough *Trilock* design offers a combination of lockset, deadbolt and passage functions in one system.

- The push button lockset mode from inside of the door features panic release by simply turning the inside knob or lever.
- Levers can be easily rotated during installation for use on left or right hand doors.
- When unlocked and unsnibbed, Trilock operates as a normal passage set.
- Lock body readily replaces old keylocks fitted to a standard 54mm hole.
- Single handed operation (key operates all functions of the lock).
- Deadbolt 20mm throw for extra security.
- Solid brass double 5 pin Euro profile cylinder can be keyed alike to other Gainsborough products for same key convenience.

The Trilock '3 in 1' locking mechanism has been awarded with an Australian Design Mark® for Good Design by Standards Australia.

Lockset with safety

Pressing the button on the inside of the door engages the Trilock lockset mode. This locks the door from the outside, however it is safe to exit without a key in an emergency by simply turning the inside knob or lever.

Deadbolt security

Trilock houses a key-operated double cylinder deadbolt, with a sturdy 20mm throw, to keep possessions and valuables safe whilst the home is unoccupied. Single cylinder version features inside turn-button.

Passage set convenience

When Trilock is unlocked and unsnibbed, it operates as a standard passage set, allowing free access in or out of the home.

Exterior side	Interior side	
		DOUBLE CYLINDER Key from either side will lock or unlock deadbolt.*
		SINGLE CYLINDER Key from outside or turn-button from inside will lock or unlock deadbolt.*
		DUMMY SET A non-operational handle set for the fixed side of a double door.

*ALSO FEATURES OTHER FUNCTIONS:
 • Push-button lockset mode
 • Passage set convenience when unlocked and unsnibbed.
