

The Roma Collection

Iconic style with a touch of luxury

The Roma Collection

While the Roma Collection's iconic style is timeless, the application is flexible. The Collection's refined aesthetic is equally at home as a stand-alone statement design feature, or while completing a cohesive look by matching details on mouldings, architraves, cabinetry wall paneling, or furniture.

The Roma Collection is also perfectly suited to a range of interior design styles, from classic and traditional to highly contemporary.

The Roma Collection features:

- Two unique designs: a stylish convex-fluted design on solid MDF panel, and a glazed option with narrow reeded glass
- Robust stile and rail joinery construction, adding durability and a premium, high-end feel
- A primed finish suitable for gloss, flat, semi-gloss, or satin paint to be applied

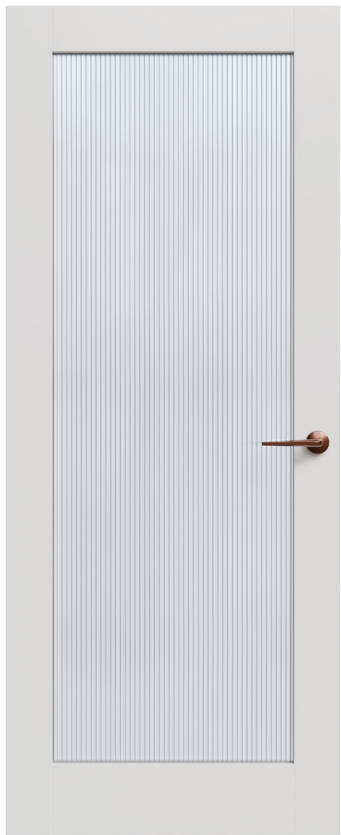

True, iconic style has a way of persisting through the ages—staying relevant, regardless of time or place. In ancient architecture, from Rome to Corinth and beyond, columns were used to make a statement. They showcased power, timelessness, and pride: designed for a stately sense of grandeur. The Roma Collection continues in that tradition, with a style that subtly hints at the luxury and splendor of ancient column design. This collection brings classic aesthetics and premium craft into modern times with a range of elegant interior doors.
